Hi Ray,

I pulled together some materials that I thought you might want to distribute to any discussants at the June Public Science Meeting. These files include:

General information

File Name	Description
General Notes about IRIS Public Science Meetings.docx	Provides some bullet points about the format of the meeting and some information about presentations and discussions.

Benzo[a]pyrene

File Name	Description
Key Science Topics and Background – BaP.docx	Provides the background and key science topics for discussion about evaluating dermal exposure to benzo[a]pyrene.

tert-Butyl Alcohol (tert-Butanol)

File Name	Description
Key Science Topics – tert-butanol.docx	Provides 2 key science topics for discussion at the Public Science Meeting. Provides information on the relevant sections of the draft toxicological review.
TERT-BUTANOL_PCD_TOXICOLOGICAL REVIEW.pdf	Main document of the public comment draft of the IRIS Toxicological Review for tert-Butyl Alcohol
TERT-BUTANOL_PCD_TOXICOLOGICAL_REVIEW_SUPPLEMENTAL_INFORMATION.pdf	Supplementary information document of the public comment draft of the IRIS Toxicological Review for tert-Butyl Alcohol (the appendices)

TERT-BUTANOL_ETBE_KIDNEY_TABLES.pdf

Provides the evidence tables and exposure-response arrays from the ETBE IRIS assessment. These are related to the tert-butyl alcohol assessment and are supplemental to Science Topic 2.

More information is available on the June Public Meeting website available from: <https://www.epa.gov/iris/iris-public-science-meeting-june-2016>

Please let me know if you think there is any other information that we can provide that would be useful for discussants to have ahead of the meeting.

Best

Vicki
